Sponsorship

We are excited to offer a day and half High Plains Pasture to Profit Conference featuring stockmanship, stewardship, and sustainability. This event will provide regional beef producers with an educational opportunity surrounding practical cattle care, handling and facility design, Beef Quality Assurance, as well as topics pertaining to animal health, antibiotic stewardship, and environmental responsibility. This event will deliver practical solutions for a variety of cattle producers - from beginners to professionals - that when applied, will help facilitate the implementation of improved management practices and aid in financial decision making, while ultimately instilling a higher level of ownership and accountability for cattle producers on their role in improving consumer confidence in beef at the ranch level.

We would like to cordially invite you to join us August 19-20, 2022 in Burlington, Colorado for networking, learning, and exploring with leaders across the agricultural region. We are currently looking for sponsors and have a wide array of opportunities to select from to ensure your company or organization finds the best fit possible.

With an expectation of over 100 attendees including ag producers, industry allies, and agricultural advocates, coupled with a strong list of speakers and panelists, this is a great opportunity for your organization to gain exposure and visibility across the Colorado, Kansas, Nebraska agriculture community, while simultaneously having an opportunity to engage and connect.

If you are interested in sponsoring the High Plains Pasture to Profit Conference, please complete the attached Sponsor Commitment form, along with a high-resolution logo, and send it to scott.stinnett@colostate.edu.

We will provide additional details as our agenda fills out as well. Thank you for the consideration, and we hope to see you there!

Sincerely,

High Plains Pasture to Profit Planning Committee
